APRIL 2010

building Ermenegildo Zegna
Milano, Via Savona 56

Creative economy garden

Creativity is nowadays an essential component of the world "office" as a place where people can share experiences. Creative Economy garden is an area dedicated to work, which reflects a philosophy which tries to retrieve the harmony with the surrounding environment, to combine professional engagement and relax in a single space where "doing business" becomes something natural

ARESLINE along with Quinze & Milan, will take part to the Tecno's event presenting armchairs of the **Xten**, **Zero7** and **Mya** collections.
